MACHINERY

CNC-Turnings // FMS Horizontal Machining Centers // Vertical Machining Centers
// Measuring machine // Multi Function Machines // Other machines

WE OFFER
QUALITY, FLEXIBILITY
AND PROMPTITUDE.

The Competitiveness
OF THE COMPANY IS BASED ON
MODERN CNC-STEERED WORKING MACHINES
AND SKILFUL PERSONNEL

Oy Nimetech Ab was established in 1993. Today, the production is mainly subcontractor works in metal for larger companies. Within this area, Oy Nimetech Ab handles a great variation of products in different materials: aluminum, cast iron, steel and stainless steel with modern working machines. We are specialized in turning and milling, assembling and testpressuring.

We are also a system supplier: for some customers the product is made from the beginning to the end and some customers are

delivered with part assemblies. In these cases, the production is done to customer drawings. We are specialized in production of small and middle-sized series. The competitiveness of the company is based on modern CNC-steered working machines and skilful personnel.

Oy Nimetech Ab has a well-established position as a subcontractor and as a system supplier.

Horizontal Machining Centers, 50 Pallets

Measuring machine

Machinery:

CNC-Turning

- 1 Four Axis CNC-Turning
- 1 CNC-Turning + Bar Loader Irco Simag
- 2 Barturningcenter + bar loader

FMS 1

- 2 Horizontal Machining Centers,
- 36 Machine Pallets
- Pallet size 630

FMS 2

- 3 Horizontal Machining Centers,
- 50 Machine Pallets
- Pallet size 500, 630, 800

- 2 Vertical Machining Centers
- up to X 4000 mm

Multi function machines

- 2 Six Axis CNC-Turning + robot cell
- 1 Nine Axis Multi Function Machines

- 2 CNC bandsaw

- Measuring machine
